

SANDBROOK NURSERY SCHOOL

The Future Begins Here

Sandbrook Nursery School is situated in the Sydenham area of East Belfast. We have strong links with and feed into many of the local primary schools.

The building is a modern, purpose built nursery school set in extensive grounds. These grounds include a sheltered all weather play area, outdoor classroom as well as a large grassy area with a wide variety of play equipment.

Over the course of the year, the children enjoy a range of learning activities and experiences in line with the Northern Ireland Pre-School Curriculum, along with a wide variety of outside visitors to further enhance their learning.

The nursery staff are highly qualified and experienced, dedicated to the well-being of the children in their care. It is the aim of the school to share with parents in the all round growth and development of their children.

AT SANDBROOK NURSERY, IT IS VERY IMPORTANT TO US THAT BOTH PARENTS AND CHILDREN FEEL HAPPY AND VALUED. IN ORDER FOR ALL CHILDREN TO REACH THEIR FULL POTENTIAL WHILE AT SANDBROOK NURSERY WE;

-  Aim to create a friendly, safe and happy environment for everyone.
-  Promote independence by encouraging the children to make decisions in their learning in all six areas of the Northern Ireland Pre-School Curriculum.
-  Provide an interesting and varied learning environment, both inside the classroom and outside.
-  Invite a wide and varied range of visitors into nursery to extend and enhance the learning experiences of the children.
-  Encourage positive behaviour.
-  Encourage parents to actively participate in their child's pre-school education.
-  Keep parents informed of nursery life through the Seesaw app, Facebook, school website and monthly newsletters.
